Art Unit: 1617

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

Claims 5-11 are rejected under 35 U.S.C. 102(e) as being anticipated by Knight et al.

Knight et al. teach a vehicle comprising an active wherein the active is added to a hot melt and extruded (claims 1-4). Powdered active is specified (column 8, line 42). Shaping is disclosed (column 8, lines 6-9). As to the claimed flavoring, invert sugar (column 7, line 7) is specified. As to the claimed viscosity, such property is inherent in the anticipatory composition because it is the same as that claimed.

Applicants now claim an absence of water, however, Knight et al. also teach removal of water prior to the hot melt step (column 7 lines 63-65).

No claims Allowed.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Art Unit: 1617

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
